

TYPE: TA-1 Shear beams from 500kg to 1.76t OIML R60 C3...C4

TA-1 is an environmentally sealed shear beam load cell which is excellent for use in floor scales, u-pallet scales, batching plants and other in/outdoor weighing applications.

Environmental protection are provided by special laser welding of metal covers for mechanical and environmentally protection of gauge area.

TA-1 is made of stainless steel welded construction to IP68

Matched outputs are made on all cells within an accuracy of 0.01mV.

TA-1 beams supplied in capacity from 500kg to 1.76t.

all 2mV/V, OIML R60 C4

Also special silo mounts are available for this type of cell up to 1.76t capacity.
